

## Caught Using Good Character

During the 2003-2004 school year the “Caught Using Good Character” Program was launched. When children are “caught” engaging in acts of kindness, teamwork, self-control, honesty, or respect they are eligible to receive a “character tag” from all staff members within the building. Once a tag is received, the tag is contributed to a class fund. At the end of each month, character tags in each class are tallied, and the class with the most tags at each grade level is recognized.
