Dear Somerville Community,

The following has been circulating on social media. The picture is **not** from Somerville as some may think, rather it originated in East Lake High in Tampa, Florida. The Tampa police have investigated and found the threat to **not** be credible (see link to the story below). Our students may have received this post and be under the impression that the note was written in a bathroom in our district. This is **not** the case. In order to remain vigilant, if you or your children see or hear anything, please do not hesitate to share your concerns with the building administration or Somerville Police Department immediately.

<https://tinyurl.com/y8wzu34o>

Sincerely,

Dr. Timothy Teehan
