

Helen Doherty Science Fair

BOOM! Volcanoes are not the only eruptions occurring here at Van Derveer Elementary School. The spirit of creativity is erupting from the minds of our brilliant young scientists.

Join us on **Thursday April 6th 2017** in the Van Derveer Elementary School gymnasium between 5:30-7:00pm for an exciting display of oozing, floating, sinking, growing, and yes...ERUPTING!

The Helen Doherty Science Fair is a non-competitive event that embodies the passion our students have for the sciences. The scientific models and experiments that the students have worked hard to create will be showcased for the community at this event. Each participant will be recognized for their efforts and receive a ribbon and certificate to acknowledge their accomplishments.
